Hello All,

Few points I wanted to summarize about my experience about study and exam hence collected them as below

About exam -

1. I have given exam in **PBT format (Paper Based Test)** in Pune. This was convenient choice for me as was not involved any travelling, or staying in Mumbai before a day of exam.
2. But there is one disadvantage also - you need more speed to complete the exam as involving additional work of marking answer sheet for correct answer selection – blackening the round and first selecting right number all time. Results are out in 5 to 10 working days.

**Some learning tips -**

1. Finally in September 2014 I finalized to give exam after knowing about written PMP, as earlier every time wanted to give exam but due to some of reason could not made it.
2. I had about 3 weeks of time to study before exam, hence first 2 weeks I studied daily almost 1 & 1/2 hour and last week I took leave for final preparation.
3. I studied majorly from 2 books - one of course PMBOK and another form Rita.
4. I also referred DG's last page chart & our course mock tests.
5. I have given 4 mock test exams of 150-200 questions, which actually boosted my confidence.
6. I also tried one written exam to get the feel of actual exam & know about my weaknesses or strengths.

In all this journey of exam I wanted to specially thank DG for all this guidance provided.

Best regards,  
Ashish
